Desbravador Integrates TravelClick's iHotelier Central Reservations System into its Property Management System

Integration Provides Real-Time Transmission of Rates and Inventory While Facilitating Seamless Communication for Hoteliers to Maximize Revenue

NEW YORK, N.Y. October 30, 2017 – [TravelClick](#), a global provider of innovative, cloud-based and data-driven solutions for hotels to maximize revenue, and [Desbravador](#), a leader in lodging industry Property Management Systems (PMS) with a commercial presence in Brazil, Argentina and Europe and more than 3,500 clients across six other countries, have come together to integrate TravelClick's iHotelier Central Reservations System (CRS) into Desbravador Intelligent Management Software's PMS.

This new integration will provide real-time transmission of hotel rates, inventory and restrictions from Desbravador to TravelClick, as well as facilitate seamless communication of hotel room reservations that are made through TravelClick and delivered to Desbravador. Through the integration, hoteliers can increase efficiency through automation, optimize guest satisfaction and maximize revenue.

"Hotel partners, whether independent or international brands, actively seek Property Management and Central Reservations Systems that ultimately support the immediate flow of information," said Débora Leite, Director of Marketing, Desbravador. "Through this TravelClick integration, Desbravador can now simplify process and increase productivity for our hotel partners overall."

"The vital integration of Desbravador with TravelClick advances communication between our lodging partners and optimizes data quality and efficiency," added Matt Vice, Vice President of Reservations Solutions and Global Connectivity, TravelClick. "Combining TravelClick's innovative software with Desbravador's proven PMS results in a unique solution that allows hotels to maximize reservations and revenue through more streamlined communication."
